# Why Subotica?

## Magical

*Do you remember where your last three meetings were? Which destination? Why? Did you use ordinary venues?*

The moment you enter the city you will fall in love with the atmosphere. The magical buildings in the Art Nouveau style will create the fairy tale milieu for your events. Feel it. Positive emotions are inevitable. Enjoy. Free your mind and relax.

## Cozy

*Are you tired by the big city humdrum and rush hours? Do you have problems keeping all delegates and employees together as a group?*

Cute and convenient. The moment you enter the city you will not have to worry about the transportation and logistics. The size of the city perfectly fits your needs. All hotels and venues are located very close to each other, and offer all necessary infrastructures. The city's spirit and magical touch, in combination with special experiences and opportunities along wine routes, horse farms or nature, will make them "breed like one".

## Value

*Are you looking for ways to maximize the features of your event and how to minimize costs? Do you always think that the service provider did not provide you with everything you paid for during the Gala opening?*

From the hotels and meeting capacities, to the unusual venues and restaurants, to must see attractions, and to pre- and post-excursions, you will receive unique and individualized treatment. All your needs and requirements will be respected and satisfied,

while at the same time, you will take advantage of cost savings measures.

Great deals. Experience one of the most prestigious tourism destinations in Serbia. The least expensive meeting and incentive package in the region. Perfect value for your money.

## Intermingle

*Do you have difficulty finding an easy destination to get to?*

Fusion of influences and cultures have created the perfect atmosphere for international and regional gatherings and meetings.

Standing out with an extraordinary location, right at the junction of major roads over the centuries, various nations have chosen Subotica.

Being major focal point of the Panonian plain, it will be a perfect spot for your event.

## Nature

*Do you want to be free? Feel your senses? Breathe fresh air? Eat organic food? Drink home-made wine?*

The pristine nature of Subotica and its surroundings is the reason why apples here actually have a taste. You can pick them straight from a tree.

Join grape harvesting and make your own wine. Enjoy.

# Enjoyment First

*Vinum bonum laetificat cor hominis.*

"Wine gladdens a man's heart" someone said. In Subotica, wine will be an inevitable part of the success story of your team, colleagues, and delegates. Why? Let us reveal the secret. Your company is a good company, it deserves therefore a good welcome, and in combination with good wine, we can help you make good people.

After the disappearance of the pre-historic Pannonian Sea, the sandy soil remained behind, hence the name "sand wine" is usually used to refer to the wines of the region. The traditionally cultivated types of wine are Kadarka and Kövidinka. Make sure to try the Župljanka, the White Burgundy, the Merlot, the Frankovka, and the Cabernet.

If you plan your incentive trip or event around September, we encourage you to think about your team harvest its own grapes and produce its own wine. Your team will discover the entire process of wine making: from manually harvesting the grapes to traditional stomping of grapes. Relax with a glass of the best Subotica wine after such an exciting day.

For a nice off-site event, we suggest a visit to one of the local wineries to learn about the wine, its history and influence from the locals. Witness the love and happiness it creates. If you wish, you may even meet the Wine Knights and become one.

## Where to Enjoy?

"Vinski dvor", or the Wine Castle, produces ten types of wine with protected designation of origin. One of the first Wine Knights Order was initiated in its very cellar. Today it can host up to 60 guests.

# Yummy

Subotica is an exceptional destination where, for centuries, cultures met creating a blend of traditional and modern flavours. It is a city of charm and peace where hedonism is a way of life. The recipes for preparing the most delicious food often combine salty and sweet tastes together and in the right proportion creating national dishes with modern influences.

For a perfect night out option or the opening event of your gathering, a list of national dishes served with typical local wines accompanied with life performance of the traditional tambourine orchestra is a must choice. No matter whether you pop in a restaurant with local or international cuisine in the city centre, or a "czarda" on the outskirts of the city, or even at a typical farm-restaurant, you will taste all the yummy flavours and be forever delighted by the region.

Why don't you have your cooking competition? Who is the best at preparing a salad? Who will bake a bigger bread? To "sit and eat" is always an option. Allow us to suggest the preparation of a local dish by yourself! Just pick a dish and the master chef will teach you how to do it exactly the same way they do it. Be part of the entire process, from chopping to tasting of your favorite dish. Brag about it to your friends when you go back home!

# Arts & Crafts

*How do they do it? This is impossible without a machine! Is it really possible to do it with your own hands? Can we take it with us as a souvenir? Please, can you teach me?*

For someone who wants something really special, who wants to become one with locals and to experience their ordinary day, there is a wide range of activities to ensure your conference, meeting or incentive program has the edgy element you are looking for. Different programs can be custom-tailored according to your needs and the goal you want to achieve with your delegates and team members.

You will learn how to use traditional techniques to replicate souvenirs made of hay, or ancient motifs into an artistic image on wood and stone. All programs can be organized in the hotel where the conference is held, but for the best experience we recommend a visit to craftsman workshops and artist ateliers. Your hosts and teacher can even facilitate a quick snack, home-made food, or traditional pastry.

# Magical Mingle

If your team does not have time to spend more than one day outside of the office, then a day-trip to Subotica will be enough to re-charge your batteries, to energize, and to inspire.

Upon your arrival, we suggest you enjoy the welcome coffee in one of the numerous bars along Korvina Street. And the journey through the magical city starts here.

Certainly, you will be fascinated taking a walk downtown overlooking the lavishly decorated buildings, streets and squares full of vitality, monuments and fountains. Take your time to enjoy each one of them, letting yourself go to that time in history.

Enjoy the beautiful Raichle Palace, the legacy house and museum of the famous architect. This will be the first introduction to the Art Nouveau style, certainly the most beautiful architectural style and best expressed in Subotica. You will feel like you were in a fairy tale. This will be followed by a visit to the city's landmark, the City Hall. Not just an administrative building, it is also an extraordinary venue for a new product launch, or a high visibility presentation.

Now it's time for a late lunch. One of the typical local restaurants can cater up to 250 guests where one can enjoy some of the most unique cuisine. A fusion of flavor and food for the body and soul. For the end, take a short walk along the banks of the lake.

*Enjoy the magic.*

2 days (1 overnight)

# Earth, Water, Air, Fire

The basic elements of nature! Yes, but also the basic ingredients of the incentive trip you want to reward your colleagues and team members with. Two "hot" days, and in combination with a some work of course.

I For accommodation, we suggest the premises of the hotels in the city center. The program starts as soon as your team arrives. Let's shake them up with a quick energizer session that will make everyone's blood run wild. Prepare your team for an afternoon working session, but before that, some finger food.

For a surprise, use some of the extraordinary venues around the city. The City Hall is a good choice but if you select the City Museum, that's not a bad choice either. The exclusivity of the venue guarantees the most positive feeling. A light lunch will be arranged and the experience continues.

Put on your sports gear. We are going to Veliki Radanovac for some paintballing fun. The goal of the game is not to leave with the least stains, but the winner is the person who has been paintballed the most with the company colors. Ultimately everyone is a winner. End the evening with perfect dinner and celebrate team spirit. At the farm house "salaš", the local "tamburitza" band will play music just for you, from evergreens to Serbian folk songs, and you will love it. Great local dishes are a must. Have a good night.

II Day 2 starts early. Remember the nice atmosphere and decoration in "salaš". You will be taken for a short craft-making session. The skillful hands of the master will show you how to give a soul to a piece of wood. You will make your own souvenir and will forever remember the Subotica experience.

*Looking forward for seeing you soon.*

2 days (1 overnight)

## Feel, sense, love

You have decided to take your colleagues for 2 days outside the office walls, maybe over a weekend. Subotica will be a true incentive award for them.

I Upon arrival at one of the numerous hotels located in the city center and after a short welcome reception and introduction to Subotica, your team will have some time to settle in, but not too much as it is already time for some activities.

Meeting halls in the hotels are perfectly equipped to assist you with the presentation of the new system your team needs to apply, or board meeting you are holding.

Take your time and make sure they learn.

For all of their hard work, you want to reward them. Just minutes from the city center, the official "no-ties" dinner will be organized on a typical farm house "salaš". A traditional welcome with a shot of "rakija" starts off the best night out they will ever have. A combination of the unique ambience, cheerful atmosphere, live tambourine orchestra, best cuisine and a local charm will overwhelm you. You will have a good night sleep afterwards.

II Good Good morning! How was your evening? Oh, you went to a local club for a night out after dinner. Nice choice. Now it is time to pack. The local tour guide will give you a tour of the city of magic. Enjoy the architectural style and pieces of art.

You will love it. See you again.

3 days (2 overnights)

## Eco-ethno-eno

To escape the city buzz, Palić Lake and the surroundings offer plenty of opportunities. Using villas for accommodations, your delegates will be nicely surprised.

I Afternoon is reserved for relaxing activities. They will be introduced to numerous plants and animal species in the Zoo. And to surprise them, at one point during the visit, after the snakes and lizards exhibit, they will be in a meeting room. Run through your work session in the untypical venue. It is the perfect opportunity for a short presentation of your company's previous year results.

Time to hit the catwalk where black ties are a must. The Great Terrace is the venue for your Welcome sitting-dinner for up to 200 guests. The violin orchestra will add style to your Ball, and in combination with the preserved architectural style of the Terrace, delegates will feel classy.

II Good morning. Your morning session continues in the Eco Center just next to the lake. It is followed by lunch organized in one of the most famous restaurants "Riblja Čarda". The short walk around the lake after lunch will help with your digestion. Have a short break.

In teams of two and four on tandem bicycles, your team members will have to hunt for hidden treasures around the lake and in the forest. The first team who gathers all the treasures and reaches the finishing line is the best.

But everyone deserves a reward. This time we are going further into tradition with a delightful wine tasting during dinner. The "sands wine" have a great color and taste, and your hosts the "Wine Knights" will teach you how to pick the best one. Teams divided into several groups will visit different wineries, and will gather at Wine Castle for a final check out. The small competition consists of guessing the type of wine and the year of production. This will be followed by perfectly tasteful dinner.

Have a good night sleep.

III The morning is reserved for summing up the past days' events while enjoying the calmness of the Lake.

Hit the road Jack!
